

ABOUT CHAMPAGNE ROSES DE JEANNE

- This is truly one of the most significant bottles of Champagnes I have ever tasted.
When the bottle Le Creux d'Enfer Rosé de Saignée was finished, it was like coming back from hypnosis. I felt uplifted, as I have witness something extraordinary, but also hunger, loneliness and I missed it already. Next time I wish for magnum, even though it will be in my dreams, as it doesn't exist. This is truly one of the most significant bottles of Champagnes I have ever tasted -

Mad about Wine

- Yet most of the changes in Champagne can ultimately be traced to the work in the vineyards, as a new generation of growers is placing an increased emphasis on a more conscientious and exacting viticulture. This can result in Champagnes of surprising vinosity and mineral intensity: Cédric Bouchard's Les Ursules, for instance, has a resonant, Burgundian expressiveness that feels entirely original, unlike any other wine in the region -

Pieter Liem

- Die Champagner von Cédric Bouchard gehören zu den eigenständigsten und eigenwilligsten in der ganzen Champagne. Sie sind füllig, stoffig und konzentriert, besitzen viel reife Frucht und Substanz, so dass eine Dossage sie nur gefälliger und beliebiger erscheinen lassen würde. So sind sie herrlich puristisch und präzise, sind enorm nachhaltig, auch wenn einige von einer längeren Flaschenreife profitieren könnten. Es sind sehr "weinige" Champagner, die man für sich geniessen kann, die aber auch hervorragend zum Essen eingesetzt werden können, zu Fisch und Meeresfrüchten, aber auch zu Fleischgerichten.

Gerhard Eichelmann

- Les Champagnes de Cédric Bouchard possèdent tous un caractère différent, mais retrouve à chaque fois une finesse de bulle rarement égalée, des notes de biscuit de Reims, de rhum ou de zestes frais. Comme un grand couturier, il travaille des champagnes "sur mesure", uniques, sur des lieux-dits de petites superficies.

Le Rouge & Le Blanc –

- These are some of the most sought after Champagnes in the world right now and the supplies are very limited! So if you are interested, please email your request immediately, we will allocate if need be and as always we'll try to cover each request as best we can. Instead of waxing on poetically about these wines and why they are so important we encourage you to Google the name. It's pretty amazing the praise that you will find as well as the extent that Bouchard goes to in making his wines. It's unmatched in Champagne and maybe in the world-

Pike and Western

- Once again, I was blown away by the wines I tasted from Cédric Bouchard. They left me speechless. These are some of the most treasured Champagnes in the world. Readers should do what ever they can to experience these magnificent wines-

Antonio Galloni Robert Parker Wine Advocate
